A very pretty wedding took place at the home of Mrs. Dunlap when Miss Ada Dunlap was united in marriage to Mr. Alexander Ryrie late of Edinburgh, Scotland. The bride was becomingly attired in a very rich dress of white silk which so harmonized with her tall figure as to make her a vision of beauty. She was supported by her sister Miss Anna Dunlap who was also beautifully dressed in pink silk trimmed with white lace. The bridegroom was supported by Mr. Daniel Munroe. After the marriage ceremony which was performed by Rev. W. M. Chalmers, the friends and relatives present enjoyed a very sumptuous repast which was tastefully prepared by Mrs. John Dunlap. The evening was afterward spent in musical selections and recounting tales of the by-gone days; We all join in wishing the happy couple a long, prosperous and happy wedded life.

GETTING VERY INTERESTING

Great Contest is Causing Great Rivalry Among the Candidates

The third week in the great popular contest which this paper is running shows that an interest is being taken greatly exceeding the editor's expectations. Several ladies in the town already have their helpers out working for them, and by the next edition will see the figures we put up into the thousands. The ladies in the country are getting busy and several new names have been added to the standing. Now is the time to get the start, and don't wait until it is too late.

At Olds an Innisfail they say that the prize will not go to Bowden if they can help it those town are hard at work for their respective candidates. Remember the prizes are worth working for and the most popular young lady gets them. The contest closes in just seven weeks more, and it promises to be the most interesting event that has taken place in these parts for some time.

Below is the standing of the candidates.

This neighborhood was visited on Wednesday and Thursday the 16th by a party of surveyors representing the Alberta Central Railway. They made two or three surveys with a view to finding the best location for a bridge across the river, and hold out hopes of an east and west railway in the near future. In connection with the above a petition has been extensively signed in the neighborhood.

Mr. Miller has bought a fine team of colts from Jas. Scott.

Several residents have expressed a wish that we had a competent Dominion Land Agent in this district. Messrs. Charles and Herbert Goddard both had their homesteads cancelled lately in error costing them unnecessary trouble and expense, they managed however to retain them by going to Red Deer.

SUPPLEMENT TO THE BOWDEN NEWS

BOWDEN, ALBERTA, CAN. THURSDAY, FEBRUARY 24, 1910.

Gordon District

People in this vicinity noticed a decided drop in the mercury last Tuesday night the register standing at 30 degrees below zero. This is much colder than we have had for about three months so we should not complain. Many of our pioneer settlers report this as being the finest winter experienced in Alberta for many years.

Bob Reed has been sawing wood for several of our neighbors this week. Those who have employed him say "he gives a good, honest day's sawing".

J. H. Miller froze his foot while cutting some wood for our school.

Mr and Mrs Whitmore entertained about fifty guests on Feb 10th. Those present report a good time. Dancing was the chief amusement and was kept at till the "wee sma hours" of the morning. We sincerely hope this will not be the last dance given by them.

The writer would be very pleased to get some information concerning Halley's Comet. We were all watching so eagerly for the appearance of this wonderful comet that we had read so much about, and upon seeing one in the western sky, we thought we had seen the one looked for; but we were soon to understand that this object talked about so much and watched nightly, was a solar stranger. Now will some one better versed on these topics than most of us are, please tell us when Halley's Comet will appear and where we will look for it.

The home of Joe Simmons caught fire last Tuesday night but the flames were extinguished before much damage was done.

We hear there are a few cases of the dreaded disease small-pox down in Berrydale but hope it is not so.

Frank Sanborn says there are lots of furs to be had even though the new settlers are forcing the fur-bearing animals back nearer the mountains.

On Premises—About first week in December: red heifer, 2 yr old blotched bran right side and shoulder; 3 yr old black steer branded on left ribs JL; 1 roan 3 yr old steer 19 on left shoulder; 1 roan yearling heifer ears notched on under side branded RJ on left rump. We have just received a special shipment of these splendid machines fresh from the factory. The first to join this club will receive first attention and their lessons free in the use of the machine and all attachments, and have first choice of the beautiful new styles and woodwork. Bring in your **\$5.00** at once. This Club is limited to 25 members.

The Standard is the Highest Grade because the rotary principle is absolutely perfect, the material the very best, and it is constructed by skilled mechanics only.

It is the Finest because the Standard Rotary Shuttle travels less than half as far as vibrating or oscillating shuttles in making each stitch. It makes 350 stitches while others make 200.

It is the Most Durable because with the shuttle travelling less than half as far there is only half as much friction and wear in doing the same amount of sewing.

It is the Most Quiet because there is not the slightest interruption of the continual round and round, silent movement of the Standard Rotary Shuttle, whereas there are two decidedly abrupt, noisy stops and two starts in making each stitch on any vibrating or oscillating shuttle machine.

It is the Easiest Running because full ball-bearing, and it requires but the slightest touch to start the shuttle revolving and very little effort is necessary to keep it going round and round, whereas on any other kind of shuttle machine 50% more movements of the treadle are necessary, in sewing the same length seam, to furnish enough power to carry the shuttle more than double the distance and to overcome the resistance from the two stops and two starts in making each stitch.

The Standard Rotary is the Best because it is the fastest, quietest, easiest running and most durable sewing machine in the world, and in addition has the very desirable feature of making either the lock or chain stitch on the same machine.

Is there a Dressmaker or a Home-sewer who can afford to absolutely throw away three hours of every seven spent in sewing on oscillating or vibrating shuttle machines? Four hours of superior work on the Standard Rotary and three hours of pleasure afford greater satisfaction. Our Club places this splendid machine within easy reach of every housewife or young woman.

The STANDARD ROTARY is a Lifetime Satisfaction

A Demonstration is a Revelation.

(Continued.)

As she stood there this Saturday night two men in the crowd were talking about the picture. They stood so near her that she could not help hearing what they said.

"It seems too bad to take the picture out of the window."

"We can leave it there another week."

"When do you start west?"

"The last of next month."

"Better leave it here till then."

"I think so too. But what a force it has, Malcolm."

Faith started at the familiar name and looked up.

The man who spoke was a middle aged, gray bearded gentleman, and the man whom he called "Malcolm" was perhaps 25 years old, a stalwart, fine looking fellow, with something in his face that made Faith puzzle over something foreign there. For an instant their eyes met. Then Faith blushed and moved back out of the crowd and went on. She did not look back, but she seemed to feel that the two gentlemen were looking after her.

"They are the persons who have bought the picture and will take it away," she said as she walked along. She was sad at the thought, for she had come to cherish the look at the father's face which she had enjoyed every day since she first saw it there.

During the next few weeks Faith had an experience that tried her as she had never been tried.

She visited scores of photographers' studios to get piecework. In some of them she would find waiting a dozen girls all on the same errand. She provided

"Why, that's father!"

ed the value of her work on several occasions, for she had learned to do the retouching in a superior manner, and still, work as hard as she would, the orders she could get did not equal her expenses which she had reduced to the lowest possible figures.

She came back to her room one day after an unsuccessful application for orders in 20 places thoroughly tired, for she had walked a good many miles, and the streets were running over with mud and snow.

She counted over her money and for the first time realized that she had reached the end. She was determined not to run in debt, although her landlady in the flat had been very kind.

She went down to a little newsstand on the corner and bought an evening paper and looked over the wilderness of "wants" and wondered how in a city like that any one ever found anything to do. She envied the butcher's boy who was just coming out of a market near by and thought of asking him how he managed to get his position while so many boys were probably without any.

She took the paper to her room and finally settled on one advertisement as offering a possible chance for her.

She had made up her mind for several weeks that she could not make a living by retouching.

"I'll do it," she said, with a faint flush of color in her face. "I wonder what mother would say?"

The advertisement was as follows:

WANTED.—An American girl to do cooking and general housework. Wages satisfactory. Apply, with references, to — Ellis avenue.

"If I can get \$4 a week with my board, I can save nearly every cent of it," said Faith resolutely. "And mother taught me how to cook. I am sure it is as honorable a way to earn a living as working in a store."

There was a bit of adventure in it also that attracted her. The thought of Dorothy Gilbert's daughter working out as a "bired girl" gave Faith something of a surprise at herself, but it was a part of her love of experiments that made possible the strange experience she was now about to know.

She went to the studio early Monday morning and secured good references. For the rest she said she would frankly ask the people to try her for a week at least and then employ her for what she could do.

She took a Cottage Grove avenue car and went directly to the number on Ellis avenue. It was a large house, with a veranda on three sides. She went around to the side entrance and, mounting the steps, rang the bell, her heart trembling a little as she did so.

CHAPTER XV.

FAITH BECOMES A "HIRED GIRL."

When the door opened, there stood, facing Faith, a good looking, well dressed woman, who was evidently the mistress of the house.

"I have come in answer to your advertisement, ma'am," said Faith slowly. She was unexpectedly embarrassed by the woman's silent look.

"Will you come in?"

The woman pointed to a chair, and Faith sat down. It was the dining room, a fine, large room, evidently well kept.

"My name is Faith Kirk. I have been at work as a retoucher in Keffen's studio, and here are some references from that place."

Faith handed them out, and the woman took them and carefully read them. While she was reading Faith looked about, shyly but observantly. She liked the appearance of the house.

"Have you ever worked out in the city?" asked the woman suddenly as she finished the references.

"No, ma'am. I came here to work in the studio and lost my position there owing to a reduction of hands."

"Can you cook?"

"Yes, ma'am," replied Faith modestly.

"And do the housework for a family of four? There are my husband and my son and daughter."

"I think I can do it. I am sure I can. I am strong and well." Faith spoke with some pride, for whether she had her mother's beauty or not she had inherited her parents' splendid physique.

The woman of the house looked at her in some hesitation.

"I don't know you at all," she finally said.

"No, ma'am. I don't know you, either," Faith said without the least appearance of being impudent, and after the fashion of Malcolm Kirk she looked straight in the other's eyes as she spoke.

The women colored at first and then smiled a little.

"It does seem to be about an even thing, doesn't it? Well, the references are good as far as they go. Would you come for a week on trial? I have generally hired my help in that way."

"Yes, ma'am."

"I am willing to pay \$3.50 a week if you can do the cooking, or even \$4 if you can do all the work satisfactorily."

"I will come on trial, and if I don't please you you can dismiss me," said Faith, a little eagerly. There was something about the woman's manner that seemed to her cold and unnecessarily businesslike; but, on the whole, it seemed like a desirable place to work.

"My name is Fulton. Yours is?"

"Kirk, Faith Kirk."

"Ah, well. Faith, I'll show you your room. Have you a trunk?"

"Yes, ma'am. At my room," Faith gave her the number.

"I'll send an expressman after it." She went to a telephone in the next room and gave the necessary order. Faith had packed her trunk so as to have it in readiness.

Mrs. Fulton led Faith up stairs to her room, which was a comfortable place, and as they stood there she talked about the work expected of the "help."

"I suppose you will want your Thursday afternoon and Sunday after dinner?"

"I suppose so," said Faith, a little vaguely.

Mrs. Fulton looked at her sharply. "I have always been in the habit of giving my girls that amount of time. Of course you don't have to take it if you don't want to."

"I should like my Sunday. I want to be able to go to church," said Faith boldly.

"Of course. We have late dinner, say 2 or half past. After that you are at liberty for the rest of the day."

Faith did not say anything, and Mrs. Fulton took her down to the kitchen, which was furnished in a complete manner that pleased Faith the moment she stepped into it.

"Are you ready to begin work today?" asked Mrs. Fulton after explaining the range and showing Faith where articles were.

"Yes, ma'am."

"Very well. We have lunch at 1. Dinner at half past 6. Mr. Fulton does not come out from the city until night. I expect my son and daughter from school always. Can you go ahead and get lunch without any help?"

"Yes, ma'am," Faith answered simply. She had determined to let her

that stimulated her. She knew she

would be able to do her best.

Mrs. Fulton looked at her new help

again with some sharpness.

"Where did you say you were from?"

I mean before you came to the city?"

"My home is in Kansas."

"That is a good way from Chicago."

Mrs. Fulton spoke in some surprise.

"No farther than Chicago is from

Kansas," said Faith, again after her

fashion looking straight at Mrs. Ful-

The woman of the house seemed

amused this time. She seemed also to

be on the point of asking more ques-

leaving Faith in possession there.

As Mrs. Fulton sat down in the par-

lor she sighed, but it was evidently a

sigh of relief.

"I never did such a thing before, to

But she looked clean and intelligent,"

she said to herself. "And I am so

Mrs. Fulton sighed again and went

up stairs to look after some of the

Wind a-whistlin' down the "reach"
Makes a feller feel forlorn.
Leaves hev tumbled from the trees;
Reeds hev died an' fallen down;
Boats turned downward on the banks;
Medder grasses dead an' brown.

Wouldn't mind the grass nor leaves
Nor the tangled, dyin' mess,
Medder oats an' illy pads,
But it's—well, the lonesomeness!
All the loaves are bleak an' bare;
Ain't no turkeys out in sight;
Ain't no social bullfrogs now
Talkin' 'cross the creek at night.

Seems like ev'rythin' is gone,
Singin' birds an' honeybees,
An' a murmur uv complaint
Sounds amongst the waving trees.
Dreary days when winter drives
All the frogs an' turkeys in.
An' a feller feels blue
Till they come aroun' ag'in.

The Show at Esquimaux.

The naval officer at the coast has been instructed to turn Esquimaux over to the Canadian Government as soon as we are ready to take it over. At the rate the Parliament is arranging the naval estimates Esquimaux will be quite a lot older before we run the show there.—Calgary Herald.

Query.

Now that Great Britain has told Canada what it does want in the way of naval assistance, is Canada going to waste money in furnishing what Great Britain does not want, and what will be of no use either to the Mother Country or to Canada?—Ottawa Citizen.

A CANADIAN SCULPTOR.

A. Phimister Proctor Has Found Success Across the Line.

Last year at the exhibition given by the Canadian Art Club, one of the most interesting features of the display was a number of pieces of statuary by A. Phimister Proctor. This was for many people probably the beginning of their acquaintance with the work of a Canadian artist, who has found a very wide acceptance in the United States. It is rather unfortunate that there should be so much foundation for the statement once sometimes hears to the effect that Canadians do not know their own artists. But the case of Mr. Proctor would certainly seem to bear it out somewhat. He has now for a decade and more been turning out work which stands comparison with the very best products of American studios, as is evident from the prompt and generous recognition it has met with, and the important commissions he has been given. But how many Canadians know that he was born in Canada?

Mr. Proctor has had a very interesting career, and one which may be called instructive in a very vivid sense of that rather hackneyed term. It is a story of earnest effort and quiet and faithful work finally crowned with artistic success. He was born in Bozansquit in this province, but the family moved to Michigan in his childhood. From there they went by wagon to Des Moines, Iowa, and later on to Denver. People who lay great stress on the importance of early environment in the career of an artist, will see much to support their theories in this childhood of a man whose greatest success has been in the presentation of wild animals, especially those of the western plains and of the Rocky Mountains. But whether or not his genius received its bent during this time when he lived with his parents practically in the open air, certainly his boyhood was spent in scenes where his love for outdoor life was fostered in every possible way.

It is said that he began to draw almost as soon as he could hold a pencil. He was also very fond of hunting, and when he was old enough, he spent whole summers in the Rocky Mountains with sketch-book and pencil. It was then that he began to make those studies of wild life which have since brought him fame. Nor was his achievement as a hunter limited to the bagging of drawings. At the age of sixteen he killed a grizzly bear and a bull elk in one day—a feat which when told to the Indians of the western plains by a brother artist, who was traveling with him not long ago, won for him the enthusiastic admiration of the redmen. And it might well do so. Nor was Mr. Proctor's early skill with the rifle or his fondness for the chase. In fact, it is only a few months ago that he went on a hunting and sketching trip in the Canadian west. During part of the time he traveled in company with Mr. Edmund Morris, who was then engaged in adding to his splendid collection of Indian portraits, a number of which were last year on exhibition in Toronto.

Mr. Proctor has always been fond of going out on hunting trips all alone, and in his early manhood used to spend months in this way in the mountains of Colorado. He would do his own cooking, and live almost entirely on game. For weeks at a time he would not see a human being. This is about as severe a test as could be devised to try the reality of a man's fondness for nature and his sympathy with her varying moods. On these trips he used to sketch the animals he shot, and also the hunters and Indians with whom he came together.

Back to Canada.

"Back to Canada," is the cry in the United States just now. In an interview recently Mr. A. D. Brown, assistant general manager of The Canadian American and the Western British American, said that never before were the expatriated Canadians leaving the land of their adoption in such numbers as now. "They have made their pile over there and are coming back to invest the money. It is being recognized that Canada is now the land of opportunity and the place for safe and sure returns for money invested. Away down in their hearts all these old Canucks have a warm corner in the wood-pine or their memory for the old home, and almost all of them keep up their connection."

"Another thing that comes to our notice is the migration of the Americans to the Canadian Northwest. This is the result of sane, extensive and widespread advertising on the part of the Canadian Government. The American farmer cannot escape Canada. It is thrown up at him at every turn. The cheapness of the land and the opportunities are flaunted in his face and in the end it gets him."

"It would be a good thing in my opinion if Ontario would advertise a little more. There are unlimited possibilities here for investment, and that is what American capital is looking for."

More Like Business.

The three large railway systems are now said to be willing to put up a half million each toward the cost of the Sesikik Centennial in the event it is postponed until 1913. That looks more like business. It also looks as though the railways had held out until they found out whether the Federal Government could be let in for the whole cost of the spree.—Edmonton Bulletin.

"Sir!" exclaimed the injured party, "you stuck your umbrella into my eye."
"Oh, no," replied the cheerful offender, "you are mistaken."

"Doubtless," replied the cheerful offender, "but you don't know my umbrella. I borrowed this one from a friend. Good day."

SUFFERED FOR SIX LONG YEARS

THEN DODD'S KIDNEY PILLS CURED MRS. RICHARD'S DIABETES.

Her Rheumatism Also Vanished When Dodd's Kidney Pills Put Her Kidneys in Condition to do Their Work.

East Chezzetcook, Halifax Co., N.S. (Special).—Cured of Diabetes and Rheumatism from which she had suffered for six years, Mrs. Boniface Richard, well known here, is joyfully telling her neighbors that she owes her health to Dodd's Kidney Pills and to no other cause.

"My Rheumatism and Diabetes were brought on by a cold and a strain, and though I was attended by a doctor he could not help me. After suffering for six years I made up my mind to try Dodd's Kidney Pills and to my surprise they did me good almost at once. Two boxes cured me completely. I recommend them to everybody as a sure cure for Diabetes, Backache and all other Kidney Diseases."

Dodd's Kidney Pills cured Mrs. Richard's Diabetes because Diabetes is a Kidney Disease, and Dodd's Kidney Pills cure all Kidney Diseases. Mrs. Richard's Rheumatism was caused by her diseased Kidneys failing to take the uric acid out of her blood. When her Kidneys were cured they strained the uric acid out of her blood and her Rheumatism vanished.

"Then you don't have any dog-watch on this craft?" inquired the anxious messenger, according to a writer in Life.

"No. This is a catboat."

An Easy Pill to Take.—Some persons have repugnance to pills because of their nauseating taste. Parmelee's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The most delicate can take them without feeling the revulsion that follows the taking of ordinary pills. This is one reason for the popularity of these celebrated pills, but the main reason is their high tonical quality as a medicine for the stomach.

INNISFAIL NOTES

Innisfail has just finished one
of the best bonspiels on record.
Six visiting rinks were here. From
Calgary, J. S. Freeze, E. W. Teller,
and Rev J. S. Short, each brought
a good rink. Red Deer sent Clark
and Hunter and Bowen came
from Strathcona. The manage-
ment had prepared two sheets of
ice on Dodda lake but a sudden
cold dip in the weather heaved and
cracked it so it was useless, how-
ever by curling all night the bon-
spiel was brought to a close in
three days. Following is a list of
prize winners: The Grand Chal-
lenge, Alberta Hotel Trophy, was
won by E. Telfers rink D. H.
Kremer, 2nd, Bowen, Strathcona,
3rd, and W. G. Wilson, 4th. The
Royal Hotel Trophy was also won
by E. Telfers rink with Bowen, 2nd
Freeze 3rd, and Clark, Red Deer
3th. The West Trophy was the
only trophy to stay at home and
was won by Edgars rink with Tel-
fer 2nd, Graham 3rd, and Clark
4th. The consolation was won
by Wilsons rink and a
special prize donated to the Innis-
fail rink winning the most games
in the bonspiel was won by Krem-
ers rink. Kremer and Wilson were
a tie for the last named prize and
the game was played off last Satur-
day night with the above result.

Innisfail has the required num-
ber of telephones to insure night
service having installed twenty new
phones in the last month. The
third operator will commence work
on March 1st.

Mr. A. Lundy spent the week
end visiting relatives in Didsbury.

Dr. Membrey had the misfortune
to have his leg broken last Satur-
day evening. He was going into
the postoffice when he slipped and
fell doubling his leg beneath him.
Latest reports state that he is do-
ing as well as possible.

Mr. Christie, of Ponoka, arrived
here on Saturday evening on a
visit to his sister, Mrs. Dr. Membrey.

Wm. Gunston was re-elected
councillor on Feb. 21st by acclima-
tion. Councillor Gunston resigned
about a month ago owing to a
difference of opinion among the
members of the council.

Mr. C. B. McCallum made a
business trip to Calgary on Mon-
day.

Mr. and Mrs. E. Berry have re-
turned from their honeymoon, and
are visiting the bride's parents Mr.
and Mrs. Wm. Scott for a short
time before taking up their resi-
dence in Calgary.

Baker & Stitt, of the Alberta
Hotel, are still making improve-
ments in the hotel. The new bar
has arrived and is now installed. It
is one of the best along the line
and adds much to the appearance
of the hotel.

We understand that W. C. Pater-
son has sold his general store busi-
ness. Mr. Fummerton, of Winni-
peg, is the new proprietor.

Miss Eileen Maguire, Miss Lucy
Webbing, and Mr. Walter McRaye
will give a first class concert in the
Innisfail Opera House on Tuesday,
March 1st, under the auspices of
the Innisfail Public Library. This
is the fifth and last of a series of
concerts given for the benefit of the
library and should draw a large
crowd.

Mrs. W. R. Wilson gave a large
"At Home" on Saturday in honor
of Mrs. Membrey who very shortly
is leaving Innisfail after a resi-
dence there of seven years. The re-
ception and the tea rooms were
profusely decorated with fragrant
crimson and pink roses, those col-
ors being adhered to in the artistic
arrangement of the tea table effi-
ciently presided over by Mrs. C. B.
McCallum and Mrs. W. A. Gilmore.
M. Humbert played some very fine
piano selections during the course
of the afternoon. Miss Queenie
Smith was kept busy opening the
door to a constant stream of callers
among whom were the following
ladies, Mesdames Bryan, B. Mc-

Another Modern Miracle Paralysis Permanently Cured

The Sufferer Paralyzed From Waist to Feet--Encased in Plaster of Paris for Nine Months--Dr. Williams' Pink Pills Cure After Four Doctors Had Failed--The Cure Vouched for by a Well Known Clergyman.

Paralysis, no matter how slight, is a terrible affliction, but to be paralyzed from waist to the feet, to be a helpless cripple, totally dependent upon what others do for you, is a condition as wretched as man could possibly bear. Such was the state of Mr. Allan J. McDonald, of Rice Point, P.E.I. For over a year he was a helpless invalid. He was paralyzed from his waist to his feet and for nine months lay in bed encased in a plaster of paris cast. Four of the best doctors in Prince Edward Island were unable to help him and he seemed doomed for a life of misery and despair. But hope came to him when he read of what Dr. Williams' Pink Pills had done for other sufferers from paralysis. He procured a supply of the Pills and began taking them. Gradually they broke the chains of disease that bound him, and filled the whole body with new blood, life and vigor. Mr. McDonald says:—"I am a farmer and in consequence have a great deal of hard work to do. One day while about my work I injured my back, but at the time I paid little attention to the injury and continued my work. As time went on, though, the pain became more severe and I soon found myself unable to lift anything no matter how light. It was not long before I had to stop work altogether and consult a doctor. He treated me but his treatment did not help me and I rapidly grew worse. I had to take to my bed, and in the hope that my spine might receive strength I was encased in a plaster of paris cast. This did not help me and I could feel the paralysis slowly creeping over me till I was totally paralyzed from my waist to my feet. I lost all control over my bowels and bladder and my legs had no more feeling than if they were made of wood. Three other doctors strived to cure me, but their treatment also was a failure, and for eleven months I lay in bed unable to move. Dr. Williams' Pink Pills were then advised and I was shown testimonials of others who had been cured of paralysis through them. I bought a supply and in less than three months

they made a remarkable change in me. I was able to get out of bed and crawl along the floor on my hands and knees. Gradually my limbs became stronger. Soon I could walk with the aid of a cane and inside of nine months after I had begun the use of the Pills I was totally cured, and once more able to do light work. Now I am as strong as ever I was and can do my work about the farm without the least trouble. I think Dr. Williams' Pink Pills are without an equal, for, besides my own case, I know of two other cases of paralysis cured by them. Two young girls who had been cripples and whom I advised to try the Pills."

In corroboration of what Mr. McDonald says, the Rev. D. MacLean, of Charlottetown, P.E.I., writes:—"I visited Mr. McDonald many times during his illness. He was attended by three or more doctors and put in plaster of paris, and everything imaginable which might be of benefit was done for him without success. He had lost all power of his body from his waist down and I think he was nearly a year under treatment before he began to use Dr. Williams' Pink Pills. I was with him the first day he moved his big toe and from that time on he gradually improved and for the last few years he has been perfectly well. I can vouch for the cure Dr. Williams' Pink Pills effected in his case."

If you are sick and the treatment you are now taking does not help you, give Dr. Williams' Pink Pills a fair trial. They have cured thousands after doctors and other medical treatment had hopelessly failed. These Pills actually make new, rich, red blood, feed the starved nerves and bring health and strength to every part of the body. This is why Dr. Williams' Pink Pills cure such apparently hopeless cases as Mr. McDonald's, and it is why they have cured thousands and thousands of sick, discouraged people in every part of the world. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Elephant Meat

That people will eat elephant meat with a relish has been proved by a butcher in Frankfort-on-the-Main. To his own profit and without the knowledge of his customers. This enterprising tradesman learned that a vicious elephant in the Ghent Zoological gardens was to be killed and made a bargain for the carcass. Within a few days that elephant was transformed into 3,800 pounds of sausage meat and every pound was disposed of at a good price.

Ailments of Men Happily Overcome

SUCCESSFULLY TRIED BY MANY.

Undoubtedly the following prescription will work wonders for that great class of men who, through dissipation of their natural strength, find themselves in their "second childhood" long before the three score and ten allotted to life's pleasures and enjoyments are reached.

It is presumed to be infallible, and highly efficient in quickly restoring in "nervous exhaustion," weak vitality, melancholia and the functions.

First get fifty cents' worth of compound fluid balmwort in a one-ounce package, and three ounces syrup sarsaparilla compound; take home, mix and let stand two hours; then get one ounce compound essence cardiol and one ounce tincture cadomene compound (not cardamom). Mix all in a six or eight ounce bottle, shake well, and take one teaspoonful after each meal and one when retiring, followed by a drink of water.

By mixing it at home no man need be the wiser as to another's shortcomings, and expensive fees are avoided.

Lack of poise and equilibrium in men is a constant source of embarrassment even when the public least expects it. For the benefit of those who want a restoration to full, bounding health, and all the happiness accompanying it, the above home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

Mother—Why, Ethel, you mustn't be sad on your birthday. What is it? Ethel—Well, Tommy'll be eight next month, and then he'll be a year older than me again, and I've tried so hard to catch up with him.

"How is your rich uncle, Tommy?" "Very ill. I'm afraid he won't last long." "Then you can lend me the ten dollars I asked you for last week."

THE SUNDAY SCHOOL

LESSON VIII.—FIRST QUARTER, FOR FEB. 20, 1910.

Text of the Lesson, Matt. vii, 1-12. Memory Verses, 7, 8—Golden Text, Matt. vii, 12—Commentary Prepared by Rev. D. M. Stearns.

When any truth is brought home to us by the Spirit how prone we are to ask: Does any one do it? What about such a one who makes a great profession of having no anxious care? Do you know if they really practice it at home? Do you think that the preacher himself lives that way? So it goes, and instead of seeing Jesus only we are prone to see everybody but Jesus. Hence the admonition of our lesson, "Judge not that ye be not judged," or, as it is elsewhere, "Let us not therefore judge one another any more" (Rom. xiv, 13). Because, as in the context, all believers shall stand before the judgment seat of Christ and every one of us shall give account of himself to God. We are so peculiar that it is generally easier to see the mote in another's eye than the beam that is in our own eye, whereas if we ourselves were right with God we would have only love for all others, and, being very conscious of our own infirmities, we would have only prayerful compassion for those of others. Christ for us in our stead on the cross obtained for us eternal redemption; Christ for us in heaven at the right hand of the Father makes victory over sin our privilege, but because we do not know as we should the power of Christ in us by His Spirit we are more often stumbling blocks than samples of what the life of Christ really is. Yet the one thing we are here for is so to live that the world may know and believe that Jesus lives.

In our last year's studies in the Acts of the Apostles some of us were much impressed by the words "Jesus shewed Himself alive" in connection with "His other resurrection words." "Jesus shewed Himself" (Acts 1, 3; John xxi 1, 14). His own testimony was that He came not to condemn, but to save. To one sinner He said, "Neither do I condemn thee; go and sin no more." To another, "Thy sins are forgiven" (John iii, 17; viii, 11; Luke vii, 48). He did condemn the self righteous, fault finding, hypocritical Pharisees, but He never had even a seemingly harsh word for the penitent sinners or for any truly desirous to be His disciples. Such love as His is heavenly; all else is from the pit. In us it is either Christ or self.

The Spirit through Peter sneaks of those who knew the way of righteousness, but did not walk therein, though professing to do so, as dogs and swine (II Pet. ii, 21, 22). See also Prov. xxvi, 11, 12. If one cannot speak even to many among the redeemed of the deep things of God (see I Cor. iii, 1, 2; Heb. x, 12, 13), how much less should we think of talking spiritual things to natural people to whom they are only foolishness. Such are spoken of finally as being "without" having no right to the tree of life (Rev. xxii, 14, 15), but if those who are "in Christ" would walk honestly toward them that are without, without Christ and without God (I Thess. iv, 10; Eph. ii, 12), who can tell how many who are now "without" might become "within" by His grace.

This life which will commend Christ to others can only be by the Spirit of God, by a wisdom which is not of this world, but in verse 11, along with Luke xi, 13, we learn that God is more willing to give us His Spirit, the fullness of His Spirit, than parents are to give good things to their children. In Jas. 1, 5, 6, we learn that this wisdom is to be had for the asking, but it must be an asking in faith and, according to Jas. iv, 3, with nothing of self seeking, but wholly for the glory of God, that the life of Jesus may be made manifest. The asking, seeking, knocking, with that end in view will surely find an abundant response. We must remember that asking so as to receive means that we are abiding, keeping His commandments and doing the things that are pleasing in His sight (John xv, 7; I John iii 22). The seeking that finds is explained in Jer. xxix, 13, "Ye shall seek Me with all your heart." As to knocking, consider Rev. iii, 20, and Luke xii, 36, and tremble at the possibility of our keeping Him knocking at our door when He so longs to take full possession of us and lavish upon us the wealth of His love. Too many are like the elder brother, unhappy and blaming the father for it, when all the time the father is saying, "All that I have is thine," "All things are yours."

In reference to the last verse (12), which is also the golden text, not that it is, like all the rest, a message for believers or those who profess to be such that they may prove the reality of their faith. For unaved people to take this verse and call it their religion is simply a going about to establish their own righteousness without submitting themselves to the righteousness of God (Rom. x, 3). We must be righteous before we can do righteously, but, having believed the love of God to us and received the Lord Jesus Christ as our Saviour, then it becomes us to manifest Christ by loving our neighbor as ourselves (Lev. xix, 18; Gal. vi, 14). No condemnation in Christ is the blood bought standing of every believer, but it is in order that the righteousness of the law may be fulfilled in us.

GIVEN UP BY HIS PHYSICIAN

JAMES DINGWALL, Esq.

Williams'own, Ont., July 27th, 1908.
"I suffered all my life from Chronic Constipation and no doctor, or remedy, I ever tried helped me. 'Fruit-a-tives' promptly cured me. Also, last spring I had a bad attack of BLADDER and KIDNEY TROUBLE and the doctor gave me up but 'Fruit-a-tives' saved my life. I am now over eighty years of age and I strongly recommend 'Fruit-a-tives' for Constipation and Kidney Trouble."

Means Money

"Why," exclaimed the kind old lady to the beggar, "are they the best shoes you've got?" "Why, lady," replied the candid beggar, "could you imagine better ones for dis business? Every one o' dem holes means pennies to me."

It Testifies for Itself.—Dr. Thomas' Eclectic Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

"Yes, Cassidy met with a violent death. He took a dose of morphine, went to sleep, and never woke up." "Do you call that violent?" "Yes, they pounded the life out of the poor fellow trying to make him wake."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. But cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Didn't Believe in Separation
Magistrate—"You say you were driven to steal from want. But why did you take all the pigs out of the sty?"

Prisoner—"Well, you see, sir, after I had taken one he missed his companion; so I took another to keep him company, and the one that was left seemed all forlorn by himself, so I took pity on him and brought him also!"

"What did the poet mean when he called his country the land of the free and the house of the brave?"

"He was probably referring to bachelors and married men," said old Mr. Smithers, sadly.—Tit-Bits.

"You have saved my life!" said the old man, whom the tramp had saved from drowning. "As a reward, you may have my daughter there." The life-saver glanced at the daughter, then bent again over the old man. "What are you doing?" asked the perplexed father. "Going to drop you in again."

The Bull Pup—"How did you lose your tail, old man?"

The Yellow Cur—"In a trolly accident."

The Bull Pup—"Do you miss it much?"

The Yellow Cur—"Not as much as the boys do who used to tie tin cans to it."

Stocking Dye Caused Poison

A case at Kingston shows vividly the danger of neglecting to apply Zam-Buk to a cut or sore. Mrs. A. Harrison, living in Place d'Armes, while attending to her household duties, struck her ankle against a sharp projection on the furniture. She took no notice of the injury, deeming it trivial. In a day or two the ankle began to swell and cause excessive pain. A doctor, called in, found that dye from her stocking had entered the wound and set up blood poison. Treatment with Zam-Buk followed, but it was several days before the limb was out of danger. "Had it not been for the powerful antiseptic properties of Zam-Buk and its exceptional healing virtues, the wound might have had a very serious result," says Mrs. Harrison. "But I believe if I had applied Zam-Buk at the time of the injury, it would have prevented the blood-poisoning altogether."

In a timber yard two workmen were carrying a large piece of wood, when the manager, who happened to come up at the time, accosted one of them. "Joe," said he, "you've got that batten upon the wrong shoulder." "I know that," was the ready reply. "It should be upon yours!"

The Hon. and Rev. John Horatio Nelson, formerly rector of Shaw-cum-Dennington, Newbury, celebrated his eighty-fifth birthday recently. His elder brother, Earl Nelson, is eighty-seven, and his younger brother, Rear-Admiral Maurice Horatio Nelson, seventy-seven.

DON'T BLAME THE CHILDREN.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 77, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Tourist—Do you know whether I'm right for Stratford-on-Avon?

Rustic silent.

Tourist (encouragingly)—Stratford—Shakespeare's country. You know Shakespeare?

Rustic (brightening)—Yus; be you he?—Tit-Bits.

The Bowels Must Act Healthily.—In most ailments the first care of the medical man is to see that the bowels are open and fully performing their functions. Parmelee's Vegetable Pills are so compounded that certain ingredients in them act on the bowels solely and they are the very best medicine available to produce healthy action of the bowels. Indeed, there is no other specific so serviceable in keeping the digestive organs in healthful action.

Her Career

"As I understand it they have lost their money, but all of the daughters are able to earn their own living save one who is most idle and incompetent. What will become of her?" "She'll have to get married."—The Housekeeper.

"Maud was afraid the girls wouldn't notice her engagement ring."

"Did they?"

"Did they? Six of them recognized it at once."

"Who is that singing so dreadfully out of tune?"

"It is my wife."

"Perhaps the accompanist plays out of tune."

"She is accompanying herself."

She—I hear Miss Chatter is talking of getting married again.

Me—didn't know she was ever married.

She—She wasn't; I said she was talking of it again.

According to Taste

The teacher was giving her class their first lesson in fractions. An object lesson seemed to be desirable.

"Mary McCauley," she said, "if there was a mince pie on your dinner table, and your mother asked you if you would have a third or a fourth, what would you say?"

"A fourth," said Mary.

Some of the children tittered, and the teacher asked, "Why would you have a fourth?"

"Cause," said Mary, "I don't like mince pie."—Lippincott's.

Some time ago I had a bad attack of Quinsy which laid me up for two weeks and cost a lot of money.

Finding the lump again forming in my throat, I bathed freely with MINARD'S LINIMENT, and saturating a cloth with the liniment left it on all night.

Next morning the swelling was gone and I attributed the warding off of an attack of quinsy to the free use of MINARD'S LINIMENT.

True Mercy

"Did you remember what I told you about being kind to dumb animals?" asked the teacher. "Yes'em," replied Jimmy Jiggs. "As soon as I got home I took the blanket and blue ribbon off of ma's pet poodle and turned him loose and let him chase a cat up a tree."—Washington Star.

Little Mary sat seriously thinking out some hard problems, when she remarked, "Grandma, I don't know yet which I'll be—a nurse of a store-keeper, or get married and be nothing."

"You see, I'm familiar with your music," remarked the amateur pianist, after his performance at the concert. "It seems so," replied the popular composer. "At any rate you took a great many liberties with it."

Hyker—Bronson tells me he is taking mud baths now.

Fyker—Why, I thought he was out of politics.

Nell—He's a college boy.

Belle—I thought so.

Nell—From his conversation.

Belle—I was too busy listening to his clothes to hear what he had to say.

HAPPY DAYS FOR BABY

The healthy child is always a happy child. All its little troubles vanish when its food digests properly and it is free from childish ailments. Most of these ailments come from stomach or bowel troubles, colds, feverishness, teething and worms. Baby's Own Tablets promptly cure all these troubles and keep little ones well. Mrs. W. G. Martin, Ravenscliffe, Que., says: "I have used Baby's Own Tablets in my home for the past four years, and since using them my little ones have enjoyed the best of health. I can recommend them to every mother as a sure cure for the little troubles of childhood." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

If you have that dreadful pain in the back—if you are tortured with Rheumatism—get Gin Pills at once. Write National Drug and Chemical Co., (Dept. N.U.), Toronto, for free sample. Regular size at dealers—60 cents a box—6 for \$2.50.

"When are you going to pay me for those wigs you had from me two years ago?" asked an anxious stage costumer. "I addie," replied the man of tragedy, "I'm an actor, not a prophet."

UNSIGHTLY COMPLEXIONS.

The constant use of Cuticura Soap, assisted by Cuticura Ointment, for toilet, bath and nursery purposes, not only preserves, purifies and beautifies the skin, scalp, hair and hands, but prevents inflammation, irritation and clogging of the pores, the common cause of pimples, black-heads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the complexion and skin. All who delight in a clear skin, soft white hands, a clean wholesome scalp and live glossy hair, will find Cuticura Soap and Ointment most successful in realizing every expectation.

Guess Again

A Scotsman took an American into a bar and asked him what he would take. "I guess I'll take champagne," the Yankee answered. "Then ye can guess again, and guess something nearer tuppence this time."

Before and After

The Wife—"I had all kinds of faith in my husband when I married him."

The Maid—"And now?"

The Wife—"Oh, I soon discovered that marriage was a great faith cure."

THE HOUSE IN SESSION

MEMBERS ARE NOW GETTING DOWN TO BUSINESS

Alberta and Great Waterways Railway Now Under Discussion—Optimistic Report Submitted by the Provincial Secretary, Showing Large Sums Invested by Incorporated Companies—List of the Standing Committees.

Edmonton.—The Alberta and Great Waterways railway, the colonizing road whose bonds were guaranteed at \$20,000 per mile to build a line from Edmonton to Fort McMurray and the road whose location there has been the cause of considerable comment of late, will be under fire in the house this week.

J. R. Boyle, ex-deputy speaker, has given notice that he will move, seconded by Mr. Woolf, Cardston, that all orders in council, the agreement, mortgage given by the company as security for guarantee by government plans, profile, books of reference, location plans, etc., be laid before this house.

The provincial secretary tendered his annual report, which is of a very optimistic nature, regarding the outlook for 1910. During the past year 200 companies incorporated with a capital of \$19,386,000. Comparison of revenue for 1908 and 1909 is \$23,008.32, as compared with \$42,073.34; total revenue since 1905 is \$122,540.91.

Premier Rutherford submitted the following list for standing committees:

Privileges and elections—Rutherford, Cross, Bennett, Cote, Woolf, Boyle, Campbell and Puffer.

French Capital Coming into Canada

Ottawa.—A further extension of the French interests in Canada is announced by Senator Roy, of Alberta, who has just returned from Paris where he has been completing arrangements with French bankers for a new loan company to operate in the four western provinces. The name of the company is La Hypothecaire Canadienne or the Canadian Mortgage Association. It has a capital of \$2,000,000, and the French capitalists interests are represented by La Societe Centrale Des Banques De Province.

English interests are also concerned through the Canadian Agency, Limited, of London, England.

The land office of the Association will be in Winnipeg. The president is Sir Daniel McMillan, and the directors are Messrs. W. R. Allan, Black, McGregor and Bevilsons. A number of Montrealers are among the shareholders. The company is incorporated in France, and it is proposed to secure further capital by the issue of French bonds.

Educationalists Will Meet at Easter

Calgary.—A provincial Educational association has been formed for Alberta, which will meet in Calgary for a three days' session on the Tuesday following Easter.

Premier Rutherford, minister of education, who originated the idea has appointed the following provisional officers: President, A. C. Newcombe, principal of Calgary High school; first vice-president, William Rae, principal Edmonton High school; second vice-president, W. A. Hamilton, superintendent of schools, Lethbridge; secretary, W. H. Thompson, principal of the Provincial Normal school. Executive committee—Prof. Kerr, of the provincial university; John Ross, chief provincial school inspector; Dr. A. M. Scott, superintendent of schools, Calgary, and Principal Thompson.

Big American Immigration

Lethbridge.—J. Bruce Walker, Dominion immigration commissioner in an interview, said that immigration from the United States in January was double that of last January. He expects one hundred and twenty thousand Americans this year. There are still twelve thousand vacant homesteads in the Lethbridge land district. The government will move the local immigration hall to a more central location and remodel it.

Would Carry Roosevelt's Mail Free

Washington.—The carry-free of postage of all mail matter sent by Theodore Roosevelt, is proposed by Representative Hamilton Fish, of New York, who introduced a bill to that effect recently. The bill reads: "That all mail matter sent by Theodore Roosevelt, late president of the United States, under his written autograph signature be conveyed free of postage during his natural life."

CANADIAN PACIFIC EXTENSIONS

Lethbridge to Calgary Line to Be Extended—The Langdon Branch to be Run a few Miles East of Irricana

Montreal.—Arrangements have been made by Mr. Wm. Whyte, second vice-president of the C. P. R. at Winnipeg, for the coming season's construction programme in the west.

This is pretty extensive and includes some 621 miles, divided between Saskatchewan, Alberta, British Columbia and Manitoba.

Much of this work is in the nature of colonization lines to open up new territory and connecting lines between already existing lines.

The programme as stated by Mr. Whyte, includes some 34½ miles in Saskatchewan, 45 miles in Alberta, 174 miles in British Columbia, and 50 miles in Manitoba, the latter being double tracking. Mr. Whyte stated that while the broad outlines had been decided upon, the details had not yet been settled, and that he would remain in Montreal several days yet, going over the work with the president and other officials.

The programme also includes the construction of a bridge over the North Saskatchewan river at Outlook, which will be a very large structure and will probably not be completed during the year, although energetic work will be carried on in every direction.

Following are the details of the work as given out by Mr. Whyte: Complete the line from Regina by a 15 mile cut off from Craven to Bulyea, giving Regina direct connection with Northern Saskatchewan.

A line from Craven on the west side of Lost Mountain Lake, northwesterly to Colinsay on the line between Winnipeg and Saskatchewan, 110 miles, opening up a new farming territory.

A big bridge over the South Saskatchewan at Outlook, and a line westerly 93 miles from Outlook, and from that point north to Maclin on the Saskatoon-Wetaskiwin line.

A line from a point 26 miles west of Weyburn, where the present line ends, 25 miles further. This is a colonization line and will be ultimately extended to Mackie on the through line between Weyburn and Lethbridge.

On the Laurier colonization line, the road will be continued from Tilton 24 miles west.

From Regina a line will be built southeast to Craven on the cut-off between Weyburn and Stoughton, 79 miles. These lines are all in Saskatchewan.

In Alberta the programme includes a line running north from Langdon, which already extends 50 miles to Irricana in the irrigation country. This will be extended 15 miles easterly to give further facilities to settlers in the irrigation block, and will eventually be carried north to connect at Red Deer with the Calgary and Edmonton lines.

Another line will be built on the Kipp extension west of the Belly river viaduct which now stops at Carmanagay on the Little Bow river. This will be extended northerly 30 miles to take care of the Alberta fall wheat district.

In British Columbia in the Columbia and Kootenay valleys a line will start from near Elko on the Crow's Nest Pass line up to Fort Steele, to meet the line already started southward from Golden, making a connection between the two main lines, a total distance of 174 miles.

In Manitoba the line will be double-tracked from Winnipeg to Portage la Prairie, a distance of 56 miles, and this eventually will be continued to Brandon.

British Teachers Are Ready for Duty

Calgary.—The special class in the Alberta Provincial Normal school for teachers from Great Britain, who had diplomas in that country and were desirous of securing teachers' certificates in Alberta graduated recently. Their names are as follows: Richard Boswell, Chester, Eng.; Clara Hay, Manchester; L. Edgar, London; L. Coates, Liverpool; E. L. Moore, London.

Every one of the above had the required education, but according to the requirements of the Alberta act had to be familiar with the school regulations in the province before being licensed to teach in Alberta. Every one of the graduates have secured good situations in different parts of Alberta and are leaving for their new fields of duty.

Effort to Secure Farm Laborers

Toronto.—The provincial department of agriculture, to supply the pressing demand in Ontario for competent farm laborers and domestic servants, in addition to the regular staff of the emigration agents in Great Britain, secured the services of a number of special representatives in England, Ireland, Scotland and the Channel Islands, who are engaged in promoting the emigration of these classes to Toronto.

Pasteur Institute in Ontario

Toronto.—The first step by Ontario towards home pasteur treatment has been taken by the provincial health department in the inclusion in the estimates of a request for \$1,000 for serum appropriations. The amount will be devoted to the preparation in the provincial laboratories of the various serums required by medical officers of the department.

Across the Ocean in a Balloon

Madrid.—A special dispatch from Teneriffe, says that in the attempt to cross the Atlantic in a dirigible balloon, Jos. Brucker, the aeronaut, will be accompanied by Colonel Shack. The dirigible Orotava will be used, and the aeronaut will strive to reach New York by way of Porto Rico and Cuba, and up through the south.

PLAN FOR WATERWAYS

SCHEME TO CONNECT WINNIPEG AND ROCKIES BY WATER

Senator Davies Creating Interest in the Proposal to Build an Immense Waterway System Across the Three Prairie Provinces—Development of Such a System Would Prove Great Regulator of Freight Rates.

Ottawa.—Senator Davies asked for surveys and reports on the proposals to improve the navigation of the Saskatchewan river to facilitate freight and passenger transportation from the foot of the Rocky Mountains to Winnipeg. He stated that little had been heard of the development of the water routes in the west because the population had been sparse, but the country would have to be taken up. Much money had been spent in the water route of the west.

With a little improvement a waterway could be opened from Edmonton to Winnipeg by way of the North Saskatchewan and Saskatchewan rivers, and Lake Winnipeg, and by the South Saskatchewan between Medicine Hat and Winnipeg. By the North Saskatchewan Edmonton will be about 550 miles to the forks and from Medicine Hat to the forks by the South Saskatchewan was 370 miles. From the forks the main Saskatchewan river to Grand Rapids, was about 355 miles. At Grand Rapids there was a splendid fall of 71 feet. There were long water stretches which would require but little correcting in the way of sand bar removal and straightening of channels to provide first-rate navigation.

Transportation over the whole system could be accomplished with little expense and trouble. There would have to be some cutting to bring Lake Manitoba, Winnipegosis and Lake Winnipeg into the system to provide water connection from Edmonton, Medicine Hat and Winnipeg. A short canal would give a water connection to Portage la Prairie. A canal would bring Lake Winnipegosis in and give water access to the whole country of provinces.

The development of such a water system through the west would prove a great regulator of freight rates which are now high. It would facilitate the distribution of wood for fuel, and lumber for building. It would greatly facilitate the distribution of coal at lower rates. There were great coal fields in the vicinity of Edmonton. Coal could be laid down at that place for a little more than a dollar a ton. However, the cost of moving a ton of coal to Prince Albert was over \$3 a ton. Water carriage would greatly reduce this.

There was a splendid water power at Grand Rapids which the minister of public works had withdrawn, and was being held for development in the public interest. A short transportation canal would give a development of 60,000 horse-power there and the place was bound to become a great milling point, where flour would be made for exportation to Europe by the Hudson Bay route. The west was contributing largely to the country's revenue now, and he thought it at the time had come to have some of it spent in developing western waterways.

The motion for papers was carried.

Who Will Be Lieutenant Governor?

Edmonton.—The opening of the legislature by Lieut.-Gov. Bulyea recalls the fact that the present session is the last at which he will officiate during his present term of office. In September of the present year His Honor's term of five years expires, his appointment having dated from the inauguration of the province in September, 1905. Already there is considerable speculation as to who will fill the gubernatorial chair during the next five years, and a number of names of eligibles have been mentioned at different times. Up to the present no official announcement has been made by the government and it is not expected that such will be forthcoming for some time. It is rumored in local government circles, however, that Lieut.-Gov. Bulyea will be reappointed to that position, and while members of the local government have no definite information from the federal authorities in relation thereto, there is a feeling prevalent that this will be the case.

Japanese Exclusion Debated in House

Washington.—A bill by Representative Hayes, of California, aimed at the exclusion from the United States of the laboring classes of Japanese was reported favorably to the house by the committee on immigration by a unanimous vote. At present the Japanese immigration is restricted by an agreement by the United States and Japan, by the terms of which Japan has prevented the laboring class from coming to the United States. It has been expected that some exclusion law would be devised to take the place of this agreement.

Czar Will Banish Brother

St. Petersburg.—It was learned recently that Czar Nicholas is so incensed over the marriage of his brother, Grand Duke Michael, to an adventuress that he has determined to mete out the heaviest punishment possible—banishment.

Canadian Suffragists Active

Toronto.—The Canadian Woman's Suffrage association proposes, following a movement started here, to inaugurate a campaign in the legislatures of the provinces of Manitoba, Quebec and Nova Scotia.

BUDGET COMES FIRST

Then Veto of Lords is the Authorized Statement of the Procedure of the Imperial House

London.—According to an authorized statement given out the imperial cabinet arrived at an absolutely unanimous decision of the course of procedure early in the week.

It is confirmed that after the passage of the budget, a bill limiting the veto of the Lords will be announced as the chief legislative work of the year.

The speech of John E. Redmond at the banquet of the United Irish League in Dublin has caused considerable flutterings in the Liberal press and party. He is reproved by the moderate section of the press for what is declared to be an attitude calculated seriously to embarrass the government, but is warmly praised by the radicals, who have been urging the ministers to adopt a stern and vigorous policy towards the house of Lords.

Mr. Redmond has received a joint telegram signed by three radical journals, the Nation, the Daily News and the Morning Leader. The message says: "Congratulations to you on your magnificent stand. The whole fighting force of Liberalism is behind you."

Some of the Unionist newspapers see the possibility of a bargain with the government to get rid of obnoxious parts of the budget. They argue the Unionists might support the government should their Irish members vote against the budget, on the conditions that its objectionable features be limited from the following year's budget.

Saskatchewan Fair

Regina, Sask.—Judging from the interest that is being manifested in the Saskatchewan winter fair, the gathering of stockmen and the exhibits of live stock at Regina on March 22-25 will exceed anything of the kind that has yet been held at the Saskatchewan capital.

Winter live stock exhibitions are becoming exceedingly popular and a large number of visitors will be in attendance at the Saskatchewan winter fair this year. Entries are already beginning to pour into the secretary's office and final arrangements are being completed to make this event in the highest degree successful.

According to the rules of the show, exhibitors must become members of the live stock association representing the kind of stock that they are exhibiting. Membership in the associations carries other privileges in addition to that of being permitted to exhibit. Persons in Alberta and Manitoba who join the Saskatchewan live stock associations will be given a return trip at the price of a single fare on the certificate plan, and they will also be entitled to free admission to all the departments of the show.

The secretary of the live stock associations is F. Hedley Auld, Regina. Mr. Auld is also managing director of the winter fair. When applying for membership in the live stock associations applicants should state whether they wish to join the horse, cattle, sheep or swine breeders' association.

Perry May Leave Mounted Police

Regina.—It is rumored here that Commissioner Perry, of the R. N. W. M. P., may shortly terminate his connection with the force. It is further reported that there is a strong possibility of the commissioner proceeding to South Africa to undertake the work of organizing a police force for the new united states of South Africa, along lines similar to the police force with which he has so long been connected in Western Canada. Commissioner Perry is at present in the East and no official confirmation or denial of the rumor can at present be obtained here.

Stamping Out Rabies in Ontario

Toronto.—The joint campaign of the federal and provincial governments with a view to stamping out rabies with which the western part of Ontario is overrun, has been officially opened. Copies of the Dominion and Ontario orders-in-councils are being distributed and made public. These orders cover 23 counties and direct that all dogs must be chained up or muzzled until the orders are countermanded. The penalty for dog owners failing to comply is a fine not exceeding \$200 under the Dominion act, and one of \$20 under the provincial act. The destruction of the dog is also involved.

Boys' Farm Experiment

Toronto.—The novel experiment of a boys' farm, to be tried by the Broadview Boys' Institute, an organization similar to the Y. M. C. A. A farm, owned, cultivated and financed by juvenile agriculturists, is to be purchased within easy reach of a trolley car. The farm is intended to afford an opportunity for a voluntary and practical study of agriculture on scientific basis. City boys out of work will have a chance to put a waiting time at the farm, and to see how they would like farm life as a variation.

Praises Canada's Ability

London.—The Financial News observes that nothing could be more eloquent of Canada's high credit than the fact that the recent loan under such close and stringent conditions should have been so readily subscribed in the last few years. Canada has shown an astuteness in borrowing which might well be studied by other colonies.

No Change in C.P.R. Officials in West

Montreal.—Rumors about changes in officers on the western lines are entirely without foundation, says Wm. Whyte, second vice-president of the C. P. R.

THE CATTLE INDUSTRY

SHIPMENTS FOR 1909 EXCEED ALL FORMER YEARS

The Passing of the Large Ranches Does not Appear to Effect the Cattle Trade in this Province—Mixed Farming and Stock Raising is Now Firmly Established, and the Cattle Industry is on More Stable Lines.

Calgary.—The high-water mark of cattle shipments from Alberta was reached in 1906, according to a C. P. R. statement. The breaking up of large ranches into smaller areas devoted to mixed farming was confidently predicted to be the death knell of the cattle trade in this province. This prediction has not only not materialized but the cause specified is shown to have quite the contrary effect. The figures for 1909 have not only reached but have passed the record of the fat year. It may be that large numbers of breeding stock were sent out consequent on restriction of ranges in the south and east, but on the other hand hundreds of small farmers have each contributed a few matured animals, aggregating a total apparently sufficient to counteract the effect of the dispersion of the large herds.

Mixed farming and stock feeding is now firmly established, and is spreading so rapidly that a year or two should see the cattle industry on more stable and economic lines than was possible under the old order of things.

The heaviest increase in output is where the rancher has been displaced for the longest period and the districts become more thickly settled.

The output has been distributed over a greater part of the year than formerly—the natural result of multiplied ownership and increase in feeding camps now existing over former range country.

In the territory north and north-east of Calgary served by the Calgary and Edmonton line and the Wetaskiwin and Lacombe branches, the figures for 1908 show an increase over 1907 of 65 per cent, on cattle, sheep and hogs respectively.

This portion of Alberta has the largest number of small farms and ranches, it is therefore conclusive proof that the stock industry is not being destroyed by settlement.

Another satisfactory feature is that the returns to the producer have been highly satisfactory and the amount of money distributed over this cattle-producing area has strengthened the determination of the small rancher to remain in the business.

Shipments of horses show a satisfactory increase of prices slightly in advance of 1908 and foreign inquiries backing the local demand should tend to a still further rise in values of first-class animals.

While shipments of hogs were considerably in excess of 1908, the supply has not nearly reached the demand, notwithstanding higher prices and more steady markets than have prevailed for years. However, the fact that shipments are now being made from districts where hitherto there have been none, is proof of the extension of mixed farming over new areas.

The South Pole Has Been Discovered

Buenos Ayres.—Confidence is strong among many here that the South Pole has been discovered. The belief is that it has been found by Dr. J. M. Charcot, of Paris. Dr. Charcot set sail from Punta Arenas four months ago in the Pourquoi Pas, which had been fitted out in France for Antarctic exploration. The captain of the steamer Sud, which arrived at Punta Arenas recently, reported that he had spoken the Pourquoi Pas, anchored at Port Gallant in the Straits of Magellan. Dr. Charcot exchanged greetings with him, but refused all his requests for information as to the results of the expedition. People at Punta Arenas are now expecting to see the Antarctic steamer back at their port at any time. What has set up the strong belief here that the French explorer has discovered the South Pole is that Dr. Charcot is returning much earlier than he had intended. He was fitted out for an expedition of two years' duration. When he left Punta Arenas he said he was determined to devote at least two years to his task.

Elevator Companies Make Statement

Fort William, Ont.—The conference referred to between the owners of the terminal elevators and the exporters, now being held in Winnipeg, was discussed by several members of the elevator companies and the exporters. The question at issue is largely one of dollars and cents, in which the owners and exporters are on opposite sides. As one of the elevator men said, "It is simply a business proposition and we are trying to make a legitimate profit. The representatives of the elevator companies claim that the exporters in their desire to get some profits out of handling the crop have threatened that if the elevator men do not allow them a margin they will throw in their influence with the Grain Growers' association and demand that the government take over the terminal elevators." Several of the local grain men have left for Winnipeg to be present at the conference.

New Alberta Minister

Edmonton.—A minister of municipalities has been appointed by Premier Rutherford, Hon. W. A. Buchanan, the member for Lethbridge, being the choice. He will have charge of the roads and bridges of the province, the local improvement districts and the collection of the educational tax.
